WHAT YOU WILL LEARN

- ✓ Translate the migration framework into workstreams and milestones.
- ✓ Plan resources across engineering, infrastructure, vendors, GRC and delivery.
- ✓ Sequence migration waves around technical and organizational dependencies.
- ✓ Track progress, risks and funding needs for executive reporting.

WHO SHOULD ATTEND

Program and project managers, PMO leaders, CISOs and security directors responsible for migration governance, plus technical leads moving into program leadership.

PREREQUISITES

PQC fundamentals recommended. Foundation or PQCS Specialist Training provides optional preparation.

Why Quantum Academy

The course draws on the Applied Quantum PQC Migration Framework and faculty experience running migration programs inside organizations.

What you will study

Program structure, resources, dependencies and migration governance.

01 Program Structure and Work Breakdown

Develop a work breakdown across discovery, planning, implementation, verification and operations. Define milestones and phase entry and exit criteria.

02 Resource and Dependency Management

Plan skills and capacity. Map technical, organizational and external dependencies, then analyze the critical path through the migration.

03 Vendor Coordination and Wave Sequencing

Group systems into coordinated waves, manage vendor timelines and sequence work to control risk and demonstrate progress.

04 Tracking, Reporting, and Risk Management

Define metrics and reporting for technical and executive audiences. Plan for rollback, vendor delays and systems that cannot migrate on schedule.
