

PQC Compliance: Singapore

PQC Compliance

Singapore's post-quantum expectations for critical information infrastructure owners, government agencies, financial institutions and other organizations. We cover CSA's Quantum-Safe Handbook and milestones, the 2035 target, MAS guidance and the evidence you will need.

Duration

2 hours

Short professional course

Level

Foundational

No prerequisites

On-demand fee

US\$249

Online on-demand

Plan for CSA's milestones and MAS review.

What you will learn

- ✓ Explain CSA's milestones for CII owners and the 2035 target for other organizations
- ✓ Prepare a migration plan for submission to CSA by March 31, 2027
- ✓ Write quantum-safe requirements into procurement for new CII systems from 2028
- ✓ Use the Quantum Readiness Index to measure progress and brief senior management
- ✓ Apply MAS guidance on quantum risk if you work in financial services
- ✓ Decide whether a Kickstarter Grant pilot suits your organization, and prepare the application

Who should attend

CISOs, compliance and risk leads, procurement officers and migration program managers at CII owners and government agencies in Singapore. Also useful for MAS-regulated financial institutions, for other organizations that hold sensitive data needing long-term protection, and for the suppliers that serve all of them.

Prerequisites

None. Optional preparation: Post-Quantum Foundation.

Why Quantum Academy

Quantum Academy teaches from *Quantum Ready*, written by the course author, and the Applied Quantum PQC Migration Framework. Faculty runs migration programs; the course is revised when regulators issue or change rules.

What you will study

3 modules · 2 hours · No exam

01 What Regulators Everywhere Ask For – 30 minutes

Identify how mandates, suppliers, critical infrastructure rules, supervision and customers create requirements. Cover the common evidence pack, NIST's FIPS 203, 204 and 205, and how Singapore's dates compare with Hong Kong, Australia, the EU and the United States.

02 Singapore's Requirements in Detail – 60 minutes

Work through CSA's Quantum-Safe Handbook and Quantum Readiness Index. CII milestones cover plans by March 31, 2027, new procurement from January 1, 2028 and completion by December 31, 2031. Cover the Cybersecurity Act, the 2035 target for other organizations, the Kickstarter Grant, and MAS guidance.

03 Demonstrating Compliance in Singapore – 30 minutes

Prepare migration plans, inventories, Quantum Readiness Index results and procurement specifications. Include supplier commitments and progress reports. Map the work to the CII Code of Practice and MAS's Technology Risk Management Guidelines, and report progress to your board.

Formats and fees

Online on-demand	US\$249
Live online	US\$379
In person	US\$499
Private team training	Custom quote

What is included

- Course handbook: full material with written instructor notes.
- Reference table of the rules covered, with dates and sources.
- PDF copy of *Quantum Ready*, written by the course author.
- 180 days of access to the online on-demand course.

Upon completion, you receive a Quantum Academy certificate of completion. It confirms that you completed the course and is separate from Quantum Academy's professional certifications.
