

PQC Compliance: Switzerland

PQC Compliance

Switzerland's post-quantum expectations for banks, insurers, asset managers and financial market infrastructures. We cover FINMA Guidance 05/2026, its mid-2027 roadmap recommendation, federal guidance and the EU rules that apply to Swiss firms.

Duration

2 hours

Short professional course

Level

Foundational

No prerequisites

On-demand fee

US\$249

Online on-demand

Prepare a board-approved strategy.

What you will learn

- ✓ Explain what FINMA Guidance 05/2026 expects of your institution, and which existing FINMA rules it relies on
- ✓ Draft a post-quantum strategy for board approval, and a roadmap ready by mid-2027
- ✓ Scope the risk analysis across processes, systems, outsourced services and distributed ledgers
- ✓ Rank data by how long it needs protection, and set migration priorities
- ✓ Write crypto-agility requirements into procurement and outsourcing contracts
- ✓ Report progress to your board, to FINMA and to your regulatory audit firm

Who should attend

CISOs, compliance officers, risk managers, legal counsel and migration program managers at Swiss banks, insurers, asset managers and financial market infrastructures. Also useful for DLT and digital asset firms, and for technology and outsourcing providers that serve Swiss financial institutions.

Prerequisites

None. Optional preparation: Post-Quantum Foundation.

Why Quantum Academy

Quantum Academy teaches from *Quantum Ready*, written by the course author, and the Applied Quantum PQC Migration Framework. Faculty runs migration programs; the course is revised when regulators issue or change rules.

What you will study

3 modules · 2 hours · No exam

01 What Regulators Everywhere Ask For – 30 minutes

Map how post-quantum requirements reach organizations and the evidence regulators share. Cover NIST's FIPS 203, 204 and 205 and compare FINMA's expectations with those of supervisors in the EU, the UK and Singapore.

02 Swiss Requirements in Detail – 60 minutes

Work through FINMA Guidance 05/2026: a board-approved strategy, its recommendation for a roadmap by mid-2027, risk analysis, inventory and crypto-agility in new systems and outsourcing. FINMA does not require an immediate migration. Cover Circular 2023/1, federal guidance, the revised Federal Act on Data Protection, and EU rules relevant to Swiss firms.

03 Demonstrating Compliance in Switzerland – 30 minutes

Prepare the approved strategy, roadmap, cryptographic inventory and priority ranking of data that needs long-term protection. Include outsourcing clauses and progress reports. Map the work to FINMA's operational resilience requirements and ISO/IEC 27001 for your board, FINMA and your regulatory audit firm.

Formats and fees

Online on-demand	US\$249
Live online	US\$379
In person	US\$499
Private team training	Custom quote

What is included

- Course handbook: full material with written instructor notes.
- Reference table of the rules covered, with dates and sources.
- PDF copy of *Quantum Ready*, written by the course author.
- 180 days of access to the online on-demand course.

Upon completion, you receive a Quantum Academy certificate of completion. It confirms that you completed the course and is separate from Quantum Academy's professional certifications.
